## Profile

I am a recent graduate with a B.S. Degree in Telecommunication Engineering, possessing a diverse skill set in areas such as programming development, computer science, digital communication, sales, and UX/UI design. I am seeking a place where I can apply my expertise, add new knowledge and skills, and contribute to a rewarding professional environment.

---

## Education

06/2023

**B.S in Telecommunication Engineering, Lebanese International University School of Engineering.**

- Key Courses: Web programming, Mobil Application Development Linux, controllers' course and lab, Computer Organization, Communication Networks, Electromagnetic Fields and Waves, Signals and systems, Analog communication systems, Digital signal processing, and different embedded Systems
- GPA: 3+/4 Lebanese International University Honors, School of Engineering

## Experience

---

8/2023-Present

### Web Developer Intern at Code Alpha

Remote

- Developed and maintained responsive web applications using HTML, CSS, PHP, and JavaScript, completing tasks 10x faster.
- Conducted code reviews and assisted in debugging and troubleshooting issues.
- Created and optimized database queries for improved performance.

8/2023-Present

### UI-UX Intern at Cod Soft

Remote

- Collaborated on user-centric designs for web and mobile applications, aligning with project objectives and user needs.
- Proficiently used design tools like Figma for wireframes, mockups, and interactive prototypes, enhancing communication and feedback.
- Led user research, usability testing, and contributed to design standardization, resulting in improved user experiences and brand consistency.

## Achievements And Projects

---

6/2023

### Clean Up Mobile Application and UI/UX Project:

- Designed and developed an Android app connecting companies and individuals with professional cleaners.
- Led the UX and UI design process, ensuring a user-friendly and visually appealing interface.
- Implemented features such as easy booking, customizable cleaning plans, professional cleaners, customer reviews, and secure payment and scheduling using XML, Java, MySQL, and PHP programming languages.

2/2023

### Ice roll Mobile Application:

- Android mobile application for ice roll shop including menu and ordering system

Programming languages: XML, Java, MySQL, and PHP.

- Compiled using Android Studio, Xampp, and Notepad++

2/2023

### **Job Requirement Agency:**

- The recruitment agency website page provides graduates with a chance to have a job matching their qualifications.
- Programming languages: PHP, JavaScript, HTML, CSS, MySQL Compiled using Notepad++.

6/2022

### **Hospital Database Management System:**

- Developed a hospital DBMS to manage doctors, staff, patients, rooms, and operations, enabling querying of information by ID.
- Implemented insertion and deletion functionalities using Java and MySQL programming languages.

4/2022

### **Car Parking device using 555 Timer IC:**

- Understand the behavior of the infrared detectors and implement a circuit by using its sensors.
- Using Proteus.

---

## **Hard Skills**

- Programming Languages: PHP, Java, HTML, CSS, Python, C, MYSQL, JavaScript, and Assembly.
- UI/UX: Figma
- Android Development: Android studio (Java, XML)
- Cisco Networking: Cisco PKT Tracer.
- Microsoft Office: high skills in Word, Excel, and PowerPoint
- Hardware Programming: LabVIEW, Lt-Spice, Proteus, and Microchip Studio.
- Database: XAMPP(MYSQL)

---

## **Soft Skills**

Teamwork  
Critical thinking

Problem-solving  
Time management

Communication  
Interpersonal

Adaptability

---

## Languages

---

- Arabic
- English

---

## Certificates

---

- B.S. in Computer and Communication Engineering.
- Joined LIU IEE workshops/UI, Cybersecurity.
- Udemy User Experience (UX) certificate.
- Udemy Figma for UI/UX design certificate
- Udemy Sales Concept- Techniques to develop your business.
- Udemy Sales -Better Sales Results Start with Better Sales Ideas.
- Udemy Sales Training -How to sell & and get sales step by step.
